COMPETITION CATEGORIES AND CLASSIFICATIONS

Competitions:

The KAA wants to provide an enjoyable competitive environment for all para-archers. This event is therefore split into two separate competitions that will take place together at the same time – you need to specify on the entry form which one you want to enter:

County Championship:

To take part in the County Championship, you will need to:

- be a member of the KAA, either through your club or as a Direct Member **and**
- hold a current ArcheryGB classification document (to be shown at registration) **and**
- shoot the specified round.

Festival:

You do not require any formal classification documentation, as the "Festival" is intended to allow any archer with a disability to take part, including those from other county associations.

Able bodied archers may also take part subject to space, but will not be eligible for awards.

The rounds to be shot are the same as for the Championship Rounds, except that seniors may choose to shoot the junior round, subject to space availability.

Categories:

Please note that competition categories might be combined at the discretion of the tournament organiser, where the number of entries is particularly low.

Open categories:

Archers with any type of disability, in separate categories for each of the specified bow-styles – bow-styles are as defined in the ArcheryGB Rules of Shooting.

ARW1/ARW2:

A single competition category for archers of either of these disability classifications, shooting any accepted bow-style. Note that compound bows in this category are limited to 35lb peek draw weight for ladies and 45lb for gentlemen; they cannot have either a peep-sight or scope, but can be shot with a release aid.

Visually Impaired:

A single category is provided for all visually impaired archers. All competitors are required to wear blindfolds and shoot with tactile sights – no other sights are permitted. The blindfold can be either a sleep mask or wraparound glasses or goggles which must be worn at all times until the end of the competition.

Simple Guide to Para-Archery Classifications:

The following definitions are taken from the 'IPC Layman's Guide to Paralympic Classification'. Further guidance is also now available from the 'Para-Archery' section of the World Archery website, following transfer of responsibility to them during 2012.

Archery Standing (ARST):

The sport class ARST includes athletes competing in a standing position and those who require some standing support because of poor balance. They either have a leg-length difference, limb deficiency or impairments that also affect their arms and trunk.

Wheelchair 1 (ARW1):

Archers in this sport class compete in a wheelchair because their impairment includes the loss of leg and trunk function. Also, their arms show a loss of muscle strength, co-ordination or range of movement. For example, one condition that might fit this sport class profile is tetraplegia.

Wheelchair 2 (ARW2):

Similar to archers in the sport class ARW1, archers in this sport class have a strong activity limitation in their trunk and legs and compete in a wheelchair. Their arms however, show normal function. This profile would likely apply to paraplegic archers.
