I should like to offer my congratulations to the winners and to all of those archers who achieved their rose awards.

I should like to thank my work party for setting up the field on the Friday and for achieving the changes of distance so efficiently.

I should like to thank my judges for a friendly job well done

I should also like to thank my scoring team for an excellent job, both during the day with the leader board and at the end with the results

Thank you to Quicks for attending

I should also like to thank all the archers shooting who made the weekend

It is many years since I have been so involved with the Kent Tournament organization, which was when Derrick was TO back in the 70's

Things don't change much Thanks to you ALL
